

DV3002

## Progressive Scan DVD Player

The DV3002 is a very capable budget player, and more than just a DVD player: It handles movie DVDs, CDs (and their -R and -RW cousins), VCDs, MP-3 and WMA music discs, and JPEG-format photo discs, too!

It delivers high image quality thanks to true progressive scan, an all-digital HDMI output, and internal scaling so you can really see the difference with whatever monitor you're using. You'll also appreciate the flutter-free movie reproduction provided by the 3:2 pulldown circuitry.

Sound quality is Marantz-standard, whether you choose stereo or multi-channel analog or coaxial digital outputs. Conveniences range from on-screen display through parental control to front-panel menu operation. The remote controller fits your hand perfectly. Our three-year warranty provides peace of mind. And you've chosen a Marantz. You can't get better than that!

- Plays DVD-Video, DVD-R/RW, CD, CD-R/CD-RW, VCD 2.0, MP-3, WMA, DivX ULTRA and JPEG HD discs
- HDMI Output with scaling (1080i, 720p and 480p)
- Progressive scan with 3:2 pull-down film detection
- 192 kHz/24-bit audio D/A converters
- 108 MHz/12-bit video D/A converter
- PAL <- to -> NTSC Converter
- Low Profile Aluminum Front Panel
