

UD5007 UNIVERSAL BLU-RAY HD PLAYER

What would you say to having the legendary Marantz audio quality in an exceptional value-for-money Blu-ray Disc player? Well we said 'Yes', and the result is the 3D-capable UD5007. Not only does it reproduce all the delicate audio details from CD and SACDs, its superb 24fps Blu-ray quality comes with BD-Live and DLNA 1.5 specifications. You can also enjoy your latest music (incl. FLAC HD) and video downloads from your PC. What's more, you get direct Netflix video on demand access with this player. The video streaming supports DivX plus HD and guarantees playback of DivX (.avi and .divx) and DivX Plus (.mkv). One of the main reasons why this player offers such high quality at a value-for-money price is the extreme solid construction. Firstly, the disc mechanism is centrally located and is fully shielded for fast and silent loading. Then there's the solid cabinet, large foot, and fan-less construction to minimise vibration. On top of that, the player's four main subsystems (mechanism, main, power supply, display) are physically separated to minimise interference. It all adds up to an unbelievable opportunity.

Main Features

- Plays Blu-ray Disc, DVD, DVD-Audio, SACD and CD
- Network streaming for audio and video (DLNA 1.5 certified)
- MP3, WMA, FLAC HD, DivX HD, AVCHD and JPEG compatible
- Full control with Marantz Remote APP in combination with new generation Marantz Receiver
- Fully shielded fast loading mechanism and no fan construction for silent operation
- Solid built quality minimizing any vibration
- High quality 2ch analogue output and multichannel downmix
- Netflix VOD support
- HDMI - 3D ready, CEC
- HIGH SPEED HDMI™ cable included
