RC9001 – Programmable Touchscreen remote

Ever dreamed of controlling your complete electronic home environment? The RC9001 will do the job and more. The Wizz-Ex RC9001 is developed to control your home environment in every possible remote control sense via one customizable and easy to use interface. Its trend setting ergonomic design, sophisticated setup, PC connectivity and large memory capacity make programming and learning a breeze. With a true color touch screen remote control, 64Mb of memory, incredible bandwidth of 25kHz to 1Mhz, IR / Wi-Fi command transmission, an USB port for PC connectivity and 2-way communication for easy control of music server, lighting system or other AV products are the results of extensive market studies and cooperation with both the enthusiastic end-users as with the custom installers all over the globe. Shape ideas, take your creativity to a new level and enjoy the endless control in Marantz style.

because music matters
